

## **Auto Coach Scoring\***

**Auto Coach Scoring** allows Captains to enter the score of their games directly into Team Sideline.

- Fast & efficient reporting & posting of match scores
- Reduces time and labor involved with the manual entry of scores

## **How to Use Auto Coach Scoring**

Team Sideline will automatically e-mail the Home Team Captain and Assistant Captain at the end of a Match.

Home Team Captains will click **the scoring link** in the received email and enter the scores for **BOTH** teams for the match they just played. Refer to your signed score sheet. Do not use the Team Sideline phone application to enter your scores. Scores can only be entered using the link in your email inbox.

If scores are not entered after the match, then two reminder emails will be sent by Team Sideline to the Team Captain.

**Auto Coach Scoring** does not replace the paper Score Sheet and photo submission of Score sheets to Division Captains. Please complete the paper Score Sheet and send in the picture of the Score Sheet to your Division Captain following each match.

***It is not entirely clear at this time if Auto Coach Scoring*** can be used for makeup games. If used, Captains will have to locate the email sent by the system on the original date of the match. We may determine that only the picture of the Score Sheet should be sent in for makeup games

\*Please note that Auto Coach Scoring is new feature of Team Sideline and we will be assessing its effectiveness based on scoring accuracy and feedback we get from Team / League Captains. Our understanding of how this feature works is somewhat limited, so we appreciate your patience as we test this new capability for the Spring 2025 League.
