

Announcing the NEW PORTER LEGACY DUNE BOARDWALK

The Porter Legacy Dune Boardwalk is a new fully accessible dune experience located adjacent to Pilgrim Haven Natural Area, offering residents and visitors a rare opportunity to enjoy one of South Haven's most beautiful natural landscapes.

The boardwalk winds through the dunes and leads to an elevated viewing platform with stunning views of Lake Michigan and the surrounding shoreline. Designed with accessibility in mind, this project helps ensure that people of all ages and abilities can experience the beauty of our lakeshore.

This special project was made possible through a partnership between the South Haven Area Recreation Authority and the Southwest Michigan Land Conservancy, with funding support from private donors and a Michigan Department of Natural Resources Trust Fund grant.

While the boardwalk itself is complete, additional amenities are still needed to make the site welcoming, comfortable, and easy to enjoy. Community sponsorships will help provide these important finishing touches and support long-term public enjoyment of this unique natural asset.
